

Over

SAULT

You never know what you got
You never know what you got
You never know what you got
Until it's over

You never know what you got
You never know what you got
You never know what you got
Until it's over

You never know what you got
You never know what you got
You never know what you got
Until it's over

I still feel love
I still feel awesome

Justice
I have a commitment problem.
I told him just straight up, I was like, look.
You bring me in and then you push me away,
Over and over and over but today,
In this moment, you ain't gonna do it again.
I'll tell you that
Woo!
