

Smile And Go

SAULT

It starts to feel lonely, when you're not fighting with me
You know it starts to feel lonely, when you're not crazy with me
You know it starts to feel lonely, when you're not dancing with me
You know it starts to feel lonely, I know how it feels to be lonely
It's an emergency

Run, smile and go, smile and go
Until the sun goes down, smile and go, smile and go
I want to run, smile and go, smile and go
Until the sun goes down, smile and go, smile and go
I want to run, smile and go, smile and go
Until the sun goes down, smile and go, smile and go
