

The Circle

SAULT

You, you're what completes me
Never desert you
I'm in the circle

It's you, you are the one
The moon and the sun
You are the circle

It's true, you are my dear stars
You are consistent
You are the purpose

My love, you're where my heart lies
You are my soul spy
You are the circle

It's true, I'll never let you go
The rain or the snow
Yeah, you are the circle
You are the circle
