

Threats

SAULT

See you as a threat now
See you as a threat now
They see you as a threat now
But don't let it break you down (down, down, down, down, down,
down, down, down, down)

I don't wanna see you lone-
Seems like you had enough
You're so beautiful
I don't know what you're running from

I just wanna see you try
I know it's hard getting up
Even though they criticize
It don't mean that you have to rush
(Keep going, keep going, keep going)

Looking for a real thing
Even though you took a wrong turn
Flying with a broken wing
That's another lesson learned
(Keep going, keep going, keep going)

See you as a threat now
See you as a threat now
They see you as a threat now
But don't let it break you down

See you as a threat now
See you as a threat now
They see you as a threat now
But don't let it break you down (down, down, down, down, down,
down, down, down, down)

See you as a threat now
See you as a threat now
See you as a threat now
(But don't let it break you down, down) (down down down down do
wn, down)
