

We Are The Sun

SAULT

Child looking at the moon
Just looks like the sun
These are the days
Some things don't change

How to stay in tune
Sticking out like a fool
All things change
And though the ghetto's where you're from

We are the suns
We are the suns
We are the suns
And the ghetto's where we're from

Child looking at the moon
Just looks like the sun
These are the days
Some things don't change

How to stay in tune (ho ho ho ho)
Sticking out like a fool
All things change
And though the ghetto's where you're from

We are the suns
We are the suns
We are the suns
And the ghetto's where we're from

We love somebody
We love somebody
We love somebody
(Ha ha ha!)

We love somebody
We love somebody
We love somebody

We are the suns
We are the suns
We are the suns
And the ghetto's where we're from
