

## Why Why Why Why Why

SAULT

I know you think about it, how my body makes you feel (don't stop, don't stop)  
And we can fool about, but I don't wanna have to steal (don't stop, don't stop)

I understand you're not mine, babe  
Why why why why why?  
Even when you're with me  
You lie lie lie lie lie  
And I know it will never change  
But I still can't say goodbye

Old habits, you're one of them (you are my weakness)  
Take my heed, this has to end (you are my weakness)  
I thought you would take me away (I thought that you could)  
So now I have to start again

I understand you're not mine, babe  
Why why why why why?  
Even when you're with me  
You lie lie lie lie lie  
And I know it will never change  
But I still can't say goodbye

Please set me free, babe

I understand you're not mine babe  
Why why why why why  
Even when you're with me  
You lie lie lie lie lie  
And I know it will never change  
But I still can't say goodbye
