SAULT

Thief in the night  
Tell the truth  
White lives  
Spreading lies  
You should be ashamed  
The bloodshed on your hands  
Another man  
Take off your badge  
We all know it was murder  
Murder, murder  
Murder

We are dying, it's the reason we are crying  
We are crying

But we will never show fear  
Even in my eyes  
I will always rise  
In wildfires  
I ain't never been scared  
Even through my tears  
I will always care  
In wildfires

But we will never show fear  
Even in my eyes  
I will always rise  
In wildfires  
I ain't never been scared  
Even through my tears  
I will always care  
In wildfires
