

L.A.D.Y.

Sauti Sol

I look at you, the rising sun I see
And every ray beholds the beauty you bear
So I wrote this, this one's for you, for your velvet skin
Your scarlet voice filling every single void
So I, I... I wrote you this sweet confessional melody and so...

L.A.D.Y would you be my B.A.B.Y
Maybe we can party through this lifetime
All day all night
W.O.M.A.N let me be your one and only M.A.N
Maybe we can party till the song is dead
365

Dreaming of you right here next to me
Me showing you, how much you mean to me
I move closer feeling your cherry lips
Your body language proving you need me too
And so I, I... I need this lasting ecstacy in my life

L.A.D.Y would you be my B.A.B.Y
Maybe we can party through this lifetime
All day all night
W.O.M.A.N let me be your one and only M.A.N
Maybe we can party till the song is dead
365

Because I, I... I wrote you this sweet confessional melody and so...

L.A.D.Y would you be my B.A.B.Y
Maybe we can party through this lifetime
All day all night
W.O.M.A.N let me be your one and only M.A.N
Maybe we can party till the song is dead
365

Because I, I... I need this lasting ecstacy in my life, so...

L.A.D.Y would you be my B.A.B.Y
Maybe we can party through this lifetime
All day all night
W.O.M.A.N let me be your one and only M.A.N
Maybe we can party till the song is dead
