

# The Lights Are Going Out

Savage Messiah

Brought upon a blessing or curse  
The soldiers prevailed and have long dispersed  
Far off echoes carry their weight  
Hold to conviction but devoured the same

Hard truths are seldom spoken

The longer you breathe  
The more that you'll fear  
The lights are going out 'round here  
Which way to turn  
When obstacles hide?  
The lights are going out inside  
Once we could see  
The warning were clear  
The lights are going out 'round here  
Why do we wait  
When sealed is our fate?  
The lights are going out too late

Oh, they're going out  
They're going out  
They're going out

Vexed instead, the graceless emerge  
The generals remembered but had been impaired  
Cries of laughter hasten their fate  
Told to be silent as the elders debate

Hard truths are seldom spoken

Prophets awoke  
The message appeared  
The light are going out 'round here  
Which way to turn  
When barriers guide?  
The lights are going out inside  
Once we could see  
The warnings were clear  
The lights are going out 'round here  
Why do we wait  
When sealed is our fate?  
The lights are going out too late

They're going out  
They're going out  
They're going out
