

What Dreams May Come

Savage Messiah

Run towards the light again
And seek the comfort of a friend
Let it be
Heaven could never be heaven without you
Lost in me
Heaven could never be heaven without you

Failures plague me
What I should have given
No worthless values
Let this hell be our heaven

Sometimes when you win, you lose
What's true in our minds is true
It's so unjust, these lives undone
In sleep of death what dreams may come

So onwards you may pursue
The chase of closure driving you
Set it free
Heaven could never be heaven without you
Here with me
Heaven could never be heaven without you

Saviors scold me
From depths I have risen
A human life is just a heartbeat in heaven

Sometimes when you win, you lose
What's true in our minds is true
It's so unjust, these lives undone
In sleep of death what dreams may come

Heaven could never be heaven without you
Heaven could never be heaven without you
Heaven could never be heaven without you
Heaven could never be heaven without you

Sometimes when you win, you lose
What's true in our minds is true
It's so unjust, these lives undone
In sleep of death what dreams may come

Heaven could never be heaven without you
