

Time

Savage

I search a place to go
A simple country
Where I can find my soul
Where I can meet you
Just find another type
I'd like to change to
A lover easy, a lover easy, a lover easy

Time
Another life to live
Another tune to find
Another love to cry for me

Time
No rest, I'm on my knees
I pray you think of me
I'm waiting, you don't mind

Time
Is slowly passing by
I'm looking through your lies
No way for you don't care of me

Time
Too many things to do
I wanna stay with you
Again you run to me
