

Where Is the Freedom

Savage

The sensation of us being wild
Every second of our life
Taking action now's the time to shine
Every minute of the night

All the pictures of a dusty world
A reflection in my mind

Where is the freedom
Where is the power of our life
We are the future
We are the rulers of our time

Where is the freedom
Where is the power in my eyes
We are the future
We are the colors of the light

The sensation of us being wild
Every second of our life
The sensation of us

We are born to give a better world
No distractions now's the time
To be happy in a pleasant home
Don't be sad we are alive

All the pictures of a dusty world
A reflection in my mind

Where is the freedom
Where is the power of our life
We are the future
We are the rulers of our time

Where is the freedom
Where is the power in my eyes
We are the future
We are the colors of the light

Where is the freedom
Where is the power of our life
We are the future
We are the future
We are the future
We are the future
