

All I Wanted

Savannah Conley

Wait, I never asked for this
All I wanted from you was one last kiss
I'll never bargain for fallin' in love all over again

But it's easy to force a girl to go mad in this world
It's always bringin' you down
And it feels bad
Yeah, it feels bad

But all I wanted was someone to share a moment
All I wanted was you
Was you

Wait, I never wanted your weddin' ring
I just wanted love, I only wanted anything
You felt and your heart
If you felt at all

But it's easy to go and forget all the good
When all you feel like you are is messed up and misunderstood
It feels bad
I'm sure it feels so bad

But all I wanted was someone to share the moment
All I wanted was you
All I wanted was someone to share the burden
All I wanted was you
Was you

But all I wanted was someone to share the moment
All I wanted was you
All I wanted was someone to share the burden
All I wanted was you
Was you
