

## Fire

Savannah Conley

I smell fire in the north  
And I smell fire in the south  
I smell fire in the west and the east  
And I taste fire in my mouth

All these madmen yellin' at me  
From the safety of a TV screen  
Sayin' I can't love my fellow man beside me  
Representin' The Land of the Free

Is this why my mind can't rest?  
Is this why my mind can't rest?  
All this hate around is killin' us  
Is this why my mind can't rest?

Is this why my mind can't rest?  
Is this why my mind can't rest?  
All this hate around is killin' us  
Is this why my mind can't rest?

Is this why my mind can't rest?  
Is this why my mind can't rest?  
All this hate around is killin' us  
Is this why my mind can't rest?
