

# To My Innocence

Savannah Conley

Thought it would go one way but I got turned around  
Seein pictures of yesterday turned me inside out  
And you said it was over, it'd be over anytime now  
It was out of our hands now we're waiting to burn out

So long to my innocence  
It didn't waste the way you might think  
It's too late for the both of us but we had a good run didn't we

We don't want the same thing  
We want something new  
And I know you, you don't want to rock the boat not for anyone  
Cause it's been working for you  
And it might be true if you make it up and say it loud enough

So long to my innocence  
It didn't waste the way you might think  
It's too late for the both of us but we had a good run didn't we  
So long

It might be true if you make it up  
It might be true if you say it loud enough  
It might be true if you act big and tough  
It might be true

So long to my innocence  
It didn't waste the way you might think  
It's too late for the both of us but we had a good run didn't we  
So long
