

Weekend

Savannah Conley

Making up is easy
When it comes to you
Wishing I could stay a little angry
At the stupid shit you do

No one would believe it
If we said we're through
We just pick up the pieces
We always do

And all I think about is
I don't ever really wanna live without your love
And all I think about is
I don't ever really wanna live without your love
Your love

We can take the weekend
And act like kids
You can drive your daddy's car like you stole it
'Cause you did

Give me all your secrets
And I'll keep them hid
Tell a couple white lies baby, know I always forgive

And all I think about is
I don't ever really wanna live without your love
And all I think about is
I don't ever really wanna live without your love
Your love

Waking up is easy
When it's next to you
All over the local papers, when you say "I do"

Seeing is believing
And you've shown me truth
Don't believe in much but got no trouble
Believing you

Don't believe in much but got no trouble
Believing you
