

# Folly

**Save Face**

Can you help me?

Is there any way to make this short and sweet?

How many days does it take before the tragedy you're waiting for

Finds your address and meets you at your front door?

I ain't gonna stay

Just because I think I have to

Is that what you want?

Is that what you want, want?

Is that what you want, want?

Can you help me?

Is it folly to think that you would?

How many days will it take before your patience wanes

And hits the floor before you forget my name?

Oh, I ain't gonna stay

Just because you say you want me to

Oh, is that what you want?

Is that what you want, want, want, want?

Is that what you want, want, want, want, want?

No, I ain't gonna stay

Just because you say you want me to

How many times will you ask me to hold on

Until you find me cold on the bathroom floor?

Is that what you want, want, want, want?

Is that what you want, want, want?
