

Found Dead at the Crime Scene

Save Face

This town needs
More than a boy band with those bright white smiles!
I wanna see blood
I wanna see what the fuck you're really made of

She tells me
"No more melodrama, why you gotta be so hostile?"
This is no family
No it's all fake, like
"La lala la la lala la"
Like "la lala la la lala la!"

I can tell you wish you were someone else
You brought a knife to a gunfight
I'll bring a bomb to your funeral
I can't help you and you can't help yourself
Don't wanna die in the sunlight
I'll live in spite of your funeral

This town needs
More than a god with a complex sense of style!
This calls for more than a violent stunt
This calls for the firing squad at once!

I can tell you wish you were someone else
You brought a knife to a gunfight
I'll bring a bomb to your funeral
I can't help you and you can't help yourself
Don't wanna die in the sunlight
I'll live in spite of your funeral

You were found dead at the crime scene
You were found dead at the crime scene
Dead dead dead at the crime scene
You were found
You were found dead at the crime scene...

I can tell you wish you were someone else
You brought a knife to a gunfight
I'll bring a bomb to your funeral
I can't help you and you can't help yourself

I won't leave you alone

I can tell you wish you were someone else...
You were found dead at the crime scene...

I won't leave you alone
