

Preoccupied

Save Face

Were you bored or just preoccupied
With the important things in your life?
Why can't I ever find myself
On the better half of your mind?
Were you bored or just preoccupied?

Can you spell it out for me
So I don't get confused by what you mean?
'Cause what you say is a completely different thing
Well, each time you ask
It's like swallowing glass
Yeah, every time you ask
Oh god, I hope it's the last

Do you enjoy watching me pull the words through my teeth?
When you ask me if things would be better if you'd just leave?
Leave, leave

Were you bored or just preoccupied?
With the important things in your life, whoa-oh
Please remind me where the line is between
Unhappy and unhealthy

Can't you do anything for me?
Can't you help me?
Can you help me?
Can you help me?
Can you help me?
Can you help me?
