

The Perks of Not Being Able to See Your Reflection

Save Face

So do you want to end up somewhere no one knows?
There's a place in the ground where we can go
Dig it out
And you will always be my Holy Ghost
And now I'm starting to fade
So 'til this rope starts to fray
I'll just hang, hang, hang on every word that you say

Get me out of this empty body, I don't want it all
It's not easy to go when you know that you'll burn in hell
Goddamn, scare me half to death then
Put me in my deathbed again and again
I can't take another second
I never want to come back ever again

I heard you talking in your sleep
So baby, would you step into a coma with me?
So rip away the cord from the phone
And when the scars start to show
She said, "Honey, take these pills and wash them down with some
bleach"

When you say my name
I swear to God it makes my heart concave
And baby, you can trust me when I say
I don't think I can carry on this way

I'm begging you to cut me out of this empty body
I don't want it all
Goddamn, scare me half to death then
Put me in my deathbed again and again
I can't take another second
I never want to come back ever again

Put me in the ground like it's the only place that we can go fo
r now
I never want to come out again, just stay with me a little bit
longer now
