

Turn It Up

Save Ferris

I listen to my radio
I'm waiting for that song to play
I wonder what you're gonna do
Am I going to hear that song today
Cause I'm counting every second
Till I can sing along
But the line is always busy
And you're not playing the song
Can't you see I'm waiting here for you

Cause I need to hear it
Though I don't know why
To lift up my spirits
And bring a tear right to my eye

I turn it up
When I hear that song
I turn it up
And I sing along
Got to hear that song again DJ
I turn it up
When I hear that song
I turn it up
And I sing along
Got to hear my favorite song again today

You do what you want to do
You say what you want to say
The choice is always up to you
To play what you want to play
So come on Mr. DJ and play us a song
The one that makes us smile and makes us sing along
Can't you see I'm calling out to you

Cause I need to hear it
Though I don't know why
To lift up my spirits
And bring tear right to my eye

I turn it up
When I hear that song...

Is there nothing I can do
I've been waiting here so long
The choice is up to you
Won't you give that song a play
Cause I got to hear it
And I need to hear it
Yeah I need to hear it again

I turn it up
When I hear that song...

I turn it up
I need to hear that song
I turn it up
I need to hear that song

I turn it up
I need to hear that song again today
Oh yeah
I turn it up
