Fire

Saving Abel

I can't wake up from this dream I'm dreaming
It's like the whole damn world has gone straight to hell
It's not my fault is what we keep screaming
When we can just blame it on ourselves

Ain't much left here to desire
Pushing my feet into the fire
Ain't much left here to desire
Pushing my feet yeah

Don't play stupid anymore
When you really know what's going on
Tryna find a way to save myself
Pushing my feet into the fire
Don't play stupid anymore
Had everything you needed all along
Tryna find a way to save myself
Pushing my feet into the fire

What we need is what we're running from
And what we need to change everything
We could make this last forever
We can make this tears us all apart

Ain't much left here to desire
Pushing my feet into the fire
Ain't much left here to desire
Pushing my feet yeah

Don't play stupid anymore
When you really know what's going on
Tryna find a way to save myself
Pushing my feet into the fire
Don't play stupid anymore
Had everything you needed all along
Tryna find a way to save myself
Pushing my feet into the fire

Yeah
Yeah

Pushing my feet into the fire

Don't play stupid anymore
When you really know what's going on
Tryna find a way to save myself
Pushing my feet into the fire
Don't play stupid anymore
Had everything you needed all along
Tryna find a way to save myself
Pushing my feet into the fire
