

Goodbye, So Long

Saving Abel

There's no need to worry all day long
Cause worry don't help a thing
We've burned our bridges at both ends
So if I never see you again

Goodbye so long hope you enjoy it while it last cause soon this
world of us is gone.
Farwell to you all cause haven knows that we don't have all tha
t far to fall

It feels like were in over our heads
That we've waisted out days
Running through life with recless disregaurd now there's nothin
g to save
Sooner than later I'll be high maybe I'll gain my peace of mind
so heres to the world that
sing us by, goodbye

Goodbye so long hope you enjoy it while it last cause soon this
world of us is gone.
Farwell to you all cause heaven knows we don't have all that fa
r to fall

So wave goodbye as we count down to the end one more trip of al
l the sun if I never see you
again
Sooner than later I'll be high so cheers to the world that sing
us by, goodbye

Goodbye so long hope you enjoy it while it last cause soon this
world of us is gone.
Farwell to you all cause haven knows we don't have all that far
to fall
