## The Wall Of Life

## **Saviour Machine**

Is there no fear of God Before your eyes Through his law comes knowledge Through his eyes seek immortality Through eternal life For passing judgement on him You condemn yourself beyond the wall of life... Beyond the wall of life My flesh will dwell in hope Justified through words Written on my heart My truth abounds to his glory My throat an open grave We are justified by faith Through him we have obtained The access to his grace In which we stand My children, this is the final hour And this is the Antichrist He who denies the Father and the Son.
