

# April

Saviour

We used to say we loved each other  
Until that became too hard to say  
And then we'd say we missed each other  
Until that feeling went away  
And now we say nothing at all  
And now we say nothing, nothing at all  
And now I say  
Let me leave  
Let me leave  
I don't want to  
But I need to  
So I named this song after you  
So chase your dreams  
And just like May  
I will always be beside you  
Darling, we burnt on much stronger  
When we were younger  
The world is much colder  
Now that we're older  
Bright lights keep fading away  
I missed you more in the winter  
What if I need you to stay  
Would you be here in a flicker?  
But I hate pretending like I am alright  
Like I am alright  
Like I am fine  
Let me leave  
Let me leave  
I don't want to  
But I need to  
But I hate pretending like I am alright  
Like I am alright  
Like I am fine  
So I named this song after you
