

## Awoken

Saviour

We're all just pissed off sons of bitches  
With the wrong attitude, spitting and tripping  
Listen kids we've got a lot to learn  
Listen up, listen  
Redeem the wealth of your creation  
Rediscover inspiration  
Redeem the wealth of your creation  
And rediscover hope  
The party's just begun  
A rediscovered confidence  
To let nothing deflate me  
Owing all to a single precept  
An old man once told me  
Have fun while we're still young  
Now letting go of everything I despised  
To sweeten the bitterness  
The thoughts when I realised  
Have fun while we're still young  
And maybe only on the inside  
As our ageing skin conceals the boy within  
But it doesn't matter unless you make it matter  
This life is what you make it  
For the day will come  
Judgment day will come  
I will return triumphant  
Judgment day will come  
We will return triumphant  
You keep acting the part, just be yourself for fuck sake  
Recognize there's no better time to let it go  
Making holes with a dagger to my chest  
To drain the emptiness  
The feeling when I realised  
Have fun while we're still young  
Forever on the inside  
Time will never age us  
For we are young  
Forever on the inside  
Until judgment day comes  
We will return triumphant
