

Black Rosary

Saviour

Cunning restart
I thought last year would be the death of me
I feel a spark, an energy
(Shining through me)
I swear I'll never fade or wander again
(Afterglow, fading slowly)

I swear my mind became my enemy
I felt your bones drifting away from me
(Shining through me)
I swear I'll never talk about this again
(Afterglow, fading slowly)

All we have are these clouds and our bones
All we have are these clouds...

Shine through
I'm shining through
These clouds could never dull me
Shine through
The afterglow is fading away slowly
Powerless
I can feel your emptiness
I'll pick you up
I swear I'll pick you up instead

I'll pick you up instead
I'm shining through
These clouds could never dull me
The afterglow
Is fading away slowly

Powerless
I can feel your emptiness
I'll pick you up
I swear I'll pick you up instead

Pivot your heart
Back to the start
Mend steadily
September's bloom, a better me
(Shining through me)
I swear I'll never complicate it again
(Afterglow, fading slowly)

Cut out the part
Lost in the dark
My jealousy
Do you compart him mentally?
(Shining through me)
I swear I'll never ask about this again
(Afterglow, fading slowly)

All we have are these clouds and our bones
All we have are these clouds...

Shine through

I'm shining through
These clouds could never dull me
Shine through
The afterglow is fading away slowly
Powerless
I can feel your emptiness
I'll pick you up
I swear I'll pick you up instead

Black rosary beads
Take my shine and grief
Black rosary, black rosary
You thought your shadow would kill me
Desire don't fail me now

Black rosary, black rosary, black rosary
Black rosary, black rosary, black
