Forget Me

Saviour

Take me to incredible places
Where I can be faceless
I want to regret everything I do
I want to neglect everyone but you
Teach me to care less
Teach me I'm careless

Now that you've met me
Don't you forget me
Don't you forget me
Now that you know me
Do you regret me?
Do you regret me?

Don't you forget me

Maybe I don't, maybe I don't care
You should forget about me
Maybe I don't, maybe I don't care
You should forget about me

You keep pretending like it doesn't affect you

Take my mind away from these places
Leaving no traces of me
I want to resent everything I do
I want to replace everyone but you
Tell me to careless
I want to be careless

Now that you've met me
Don't you forget me
Don't you forget me
Now that you know me
Do you regret me?
Do you regret me?

Maybe I don't, maybe I don't care
You should forget about me
Maybe I don't, maybe I don't care
Enough about today
Enough about this world
Enough about myself

Make me more like you
Make me less like me
