

Never Sleep

Saviour

Cause you were that whisper in my head
The light beside my bed
The night I wished I was dead
And I will never fall asleep
(And I will never fall asleep)

So tell me
How did you forget me?
Like déjà-vu
Speak untrue
I fucking hate the way you think you're unbreakable

Cause you were that whisper in my head
The light beside my bed
The night I wished I was dead
And I will never fall asleep
(And I will never fall asleep)
Until the spark leaves my eyes

Cause you were that whisper in my head
The light beside my bed
The night I wished I was dead
And I will never fall asleep
(And I will never fall asleep)

(Darling, haunt me, remind me of you)

Pass me through your hearts turnstile
Make it worthwhile
Remind me of the days we spent just wasting days
Oh god, I think its been awhile

Now I'm another lost kid
Looking for my exit
Find my affidavit
Underneath my eye lids
Fuck
Oh god, I think its been awhile

So tell me
How did you forget me?
Like déjà-vu
Speak untrue
I fucking hate the way you think you're invincible

Cause you were that whisper in my head
The light beside my bed
The night I wished I was dead
And I will never fall asleep
And I will never fall asleep
Until the spark leaves my eyes

It keeps burning and burning

Burn on
Until I fade out
You haunt me forever

Again
I still feel you in my dreams

It's true
How am I supposed to breathe without you
I won't sleep
It's true
How am I supposed to breathe without you

(On my own)
I hate the way you talk
I hate the way you sleep right beside me
Even when you're not beside me
Even when I'm on my own
Even when I'm cold at home
Even when you fucked me over
You fucked me over
Even when you fucked me over

Cause you were that whisper in my head
The light beside my bed
The night I wished I was dead
And I will never fall asleep
(And I will never fall asleep)
