

Tidal Wave

Saviour

You used to have a light inside you
That shined just like a lamp post
Poison my faith with your loathe
Wildfire melt me fucking right down
Blending my bones with the dirt

Be brave
'Cause I am immortal
With or without you

So retrace the journey
Rewrite the story
Maybe I'll find meaning
Maybe I'll find nothing
As we gather here around you now
Around you now
With flowers

I can't feel anything anymore
I've drowned inside myself
Shine and fade
Tidal wave
Rest my bones on the ocean's floor

And time moves on (Time moves on)
With or without you (Without you)

So I'm sitting on the ocean's floor
And there's nothing to discover anymore
Maybe I'll find meaning
Maybe I'll find nothing
So I'm sitting on the ocean's floor
And there's no way to recover anymore
Maybe I'll find meaning
Maybe I'll find hope
Maybe I'll find God

Beside the same lamp post
That you crashed your fucking car

And when morning came
We layered the footpath with flowers

Bleed and the whole world bleeds
You sleep and the whole world stays the same
Poison the faith in me
In prayer we wasted time for hours

It's a pity your car
Left us nothing but scar
An open note to the world
I keep buried in my pocket
A pity your car
Left us nothing but scar
An open note to the world
I keep buried in my pocket

I can't feel anything anymore
I've drowned inside myself
Shine and fade
Tidal wave
Rest my bones on the ocean's floor

I can't feel anything anymore
Shine and fade
Tidal wave
Rest my bones on the ocean's floor
