Wildfire

Saviour

She came into your life like a wildfire
Just like a wildfire
Burning on, and on
I know we'll fade out later
Tomorrow had begun
Your love was just not enough
She just wanted something else

You gave her your love, just for the fire
Got lost in the wildfire, cause you were too young
You gave her your love, just for the fire
Got lost in the wildfire, cause you were too young

Just like a wildfire,
Burning on, and on
I know we'll fade out later
Tomorrow had begun

She burnt a hole right through your soul
And left so fast you didn't feel it
She burnt a whole right through your soul
You didn't feel it

You gave her your love, just for the fire
Got lost in the wildfire, cause you were too young
You gave her your love, just for the fire
Got lost in the wildfire, cause you were too fucking young

She burnt a hole through your soul
Because your love, was just not enough
She just wanted something else
She burnt a hole right through your soul
And left so fast you couldn't feel it
(She burnt a hole right through your soul)

Just like a wildfire
Burning on, and on
And I know we'll fade out later
Tomorrow had begun
Just like a wildfire
(She burnt a hole right through your soul)
(She burnt a hole right through your soul)

But her love was just not enough
You just needed someone else
