

Turn Your Lamp On

Savoy Brown

Well, I'm standin' here, girl, dreamin' of you and me
Come and make my dreams reality
Give me two cents and I give you a dime
If you want me too, girl, I'll make you happy all the time
I'm lookin' for nothin' but a little company
Turn your lamp on, baby, let it shine on me

Help me, girl, I'm freezin' away
I wanna warm myself by your flame today
Whatever goes on, no one needs to know
I leave by the back door when it's time to go
Come on, girl, give me your cue
Turn your lamp on, baby, let it shine on me

We can be lovers, we don't have to be friends
I'll be waitin' on the corner, just tell me when

My patience, girl, is runnin' low
But I'll still be here when the moon starts to go
I ain't lookin' for nothin' for free
Turn your lamp on, baby, let it shine on me

I'm standin' here just waitin' for a smile
I must have paced around a million miles
I'm closest to heaven I've ever known
When's the last time, girl, I was with you alone
I'm lookin' for nothin' but a little company
Turn your lamp on, baby, let it shine on me

Yeah, yeah...

I'm lookin' for nothin' but a little company
Turn your lamp on, baby, let it shine on me
