

# Deliver Me

Sawyer Brown

I'm up on the high-wire  
In the middle this time  
I hope somewhere  
Both ends of this rope are tied  
Don't know if I'm ending or beginning  
Or just spinning on a wheel  
I've been flying, I've been falling  
Through the air and in between  
When I feel you reaching out for me  
It feels like solid ground under my feet

You deliver me  
Like a river, we  
Wind on to the place that we were meant to be  
I am not alone  
With you I'm home  
Day by day I see  
You deliver me

I wondered if I'd find you  
I wondered where you'd be  
And if your heart was open  
Was there room in there for me  
But when I add up all the questions  
They don't matter now  
'Cause in your eyes I see the answers  
And I know without a doubt  
I can finally say just where I am  
When I've got you holding onto my hand

You deliver me  
Like a river, we  
Wind on to the place that we were meant to be  
I am not alone  
With you I'm home  
Day by day I see  
You deliver me

And you deliver me, deliver me  
Even when I can't see where this road will lead  
Oh you deliver me

You deliver me  
Like a river, we  
Wind on to the place that we were meant to be  
I am not alone  
With you I'm home  
Day by day I see

You deliver me  
Like a river, we  
Wind on to the place that we were meant to be  
I am not alone  
With you I'm home  
Day by day I see  
You deliver me
