

Savin' the Honey for the Honeymoon

Sawyer Brown

Well she's savin' the honey for the honeymoon
She ain't a gonna give it up to some starry night in June
She'll give you a little sugar, not too much too soon
She's savin the honey for the honeymoon

She's got her stubborn little mind made up
Not gonna let lovin' go too far
He can't talk the little girl
Into the back seat of his car

Cause she's savin' the honey for the honeymoon
She ain't a gonna give it up to some starry night in June
She'll give him a little sugar, not too much too soon
Savin the honey for the honeymoon

Such a little sexy thing
She's got such an old fashioned way
He thinks he's gonna bust
If he got to wait another day

Cause she's savin' the honey for the honeymoon
She ain't a gonna give it up to some starry night in June
She'll give him a little sugar, not too much too soon
Savin the honey for the honeymoon

She knows she drives him crazy
But she loves that boy it's true
She wants to get it right that very first night
When they say I do.

Cause she's savin' the honey for the honeymoon
She ain't a gonna give it up to some starry night in June
She'll give him a little sugar, not too much too soon
Savin the honey for the honeymoon

Yeah she's savin' the honey for the honeymoon
Oh she's savin' the honey for the honeymoon
