

This Time

Sawyer Brown

Sittin' on the front porch nothing but time
Missed you so bad I'm about to go blind
I've got the window busted and the door kicked in
From the last time we said never again

But this time I'm going to see you coming
Ain't going to be surprised
Yea this time
I'm going to know what hit me right between the eyes
Just one time I want to think it over
Before we speak our minds
I know we can make a go this time

It's hard and heavy Lord day and night
That's the way we love and that's the way we fight
We can't stay together can't be alone
We can go for good but we don't stay gone
