

Your Faith

Sawyer Brown

When I can't quite see the light
It's like I'm running in sand
I get down oh so down, don't feel like much of a man
but every time I slip and fall and you reach out your hand

Your faith in me
Is all I ever wanted
All I ever need
My love will be
Standing side by side there rivaling your faith
My love will be rivaling your faith in me

With your arms wrapped around me tight
Tell me what more do I need
I get busted, bruised and busted
I cry, I hurt and I bleed
Then your healing comes up on me
I look thru my tears at your faith

Your faith in me
Is all I ever wanted
All I ever need
My love will be
Standing side by side there rivaling your faith
My love will be rivaling your faith in me

And the more I learn about livin'
The more I know I need your faith
Your faith in me, in me

Your faith in me
Is all I ever wanted
All I ever need
My love will be
Standing side by side there rivaling your faith
My love will be rivaling your faith in me

My love will be rivaling your faith in me
