

Because Of You

Sawyer Fredericks

I'm looking, I'm looking
For what I can't find
Nobody told me
It would be this hard
To find the one I love
To find the one I love

Because of you
Because of you
Because of you
I can't define
Love

One day I'll look up
At the sky
And when I look at the stars
It doesn't make
Me warm inside
It makes me wanna cry
Because of you
Because of you
Because of you
I can't define
Love

Put my life on the line
Put my soul down the drain
Put my heart on the line
So it broke
You can have it

Because of you
Because of you
Because of you
I can't define
Love

So I'm looking,
I'm looking
For what I can't find
Nobody told me
It would be this hard
To find the one I love
To find the one I love
To find the one I love
To find the one I love

Because of you
Because of you
Because of you
I can't define
Love
