

## Lovers Still Alone

Sawyer Fredericks

You've been losing more than you're gaining  
It is taking its toll  
And all your life you've always said I was the one  
Oh, wake up, you're not in love  
The time that you had is gone  
So move on  
So move on

Is there one man living to deliver the message  
To the ones who won't let go  
It's been long time coming and I'm tired of running  
From a lover who's still alone  
Move on, oh, you're a lover who's still alone  
Move on, oh, you're a lover who's still alone

Thinking of leaving, just keep waiting  
It's all I've ever been told  
When all that you wanted is turning to nothing  
Just like the ones you love

Oh, wake up, you're not in love  
The time that you had is gone  
So move on  
Oh, move on

Is there one man living to deliver the message  
To the ones who won't let go  
It's been long time coming and I'm tired of running  
From a lover who's still alone  
Oh, yeah  
Oh, yeah

Is there one man living to deliver the message  
To the ones who won't let go  
It's been long time coming and I'm tired of running  
From a lover who won't let go

Oh, move on, if your lover's still alone  
Said move on, if your lover's still alone
