

# Please

Sawyer Fredericks

She's calling me, with a gentle touch  
A love so real, it was far too much  
For a boy like me, a worried mind  
To believe in you, I gotta close my eyes

You want me to say, please  
Baby I can say, please  
You want me to get down on my knees  
Baby I can get down on my knees  
I can say please

The will was strong, but my legs were weak  
I could not walk and I could not speak  
The love that you gave me was so way down south  
Baby I was born just to kiss your mouth  
You want me to say

You want me to say, please  
Baby I can say, please  
You want me to get down on my knees  
Baby I can get down on my knees  
I can say please

So I became a part of you  
And you became a part of me  
See I had no choice, but to lie to you, see  
If I told you the truth, you'd have set me free  
You'd have set me free

You want me to say, please  
Baby I can say, please  
You want me to get down on my knees  
Baby I can get down on my knees  
You want me to get down on my knees  
Baby I can get down onto my knees

I can say please  
Baby I can say please  
I can say please
