

# Shots Fired

Sawyer Fredericks

Puttin' down white flag  
Enemy's moving in  
Battle line's filled with red  
And I know how this ends

But I hold on 'til the hope is gone  
I hold on 'til all is lost

Shots fired, No mercy  
The sound of a voice is a weapon of choice  
Shots fired, it kills me  
Smile at death with my last breath  
It's a warzone

Shots fired, no mercy  
The sound of a voice is a weapon of choice  
On me

Shattered heart, broken mind  
I don't mind the defeat  
Final march down the line  
No pain or hurt, no victory

I hold on 'til the hope is gone  
I hold on 'til all is lost

Shots fired, no mercy  
The sound of a voice is a weapon of choice  
Shots fired, it kills me  
I smile at death with my last breath  
It's a warzone

Shots fired, no mercy  
The sound of a voice is a weapon of choice on me

Finally, she got me where she want me now  
Who am I to stop her?  
Lookin' straight down the barrel now  
Won't you pull the trigger?

Shots fired, no mercy  
The sound of a voice is a weapon of choice  
Shots fired, it kills me  
I smiled at death with my last breath

It's a warzone  
Shots fired, it kills me  
The sound of a voice is a weapon of choice on me
