

Still Here

Sawyer Fredericks

Goodnight my Love
It's been a long day
To bring my spirits up
Ain't gonna be easy

I'll see you in the morning
I'll put a smile on my face
You won't even speak to me
So why am I to stay

So take my hand
Cause this is where I stand
Yes I need to know
If you're even there
Yes I need to know
If you're still here

Your love is faded
As faded as your jeans
You don't love me anymore
But you won't leave
I keep trying to make you happy
But it gets harder and harder
I keep on giving my love
It's like you don't even want it
I can't keep it up anymore
Yes, I'm gonna walk out that door
It's like you don't even care anymore
But I need to know

So take my hand
Cause this is where I stand
Tired of your lies
And no helping hand

So take my hand
Cause this is where I stand
Cause I need to know
If you're even here
Yes I need to know
If you're still there
Yes I need to know
If you're still here
