

# All Hell Breaking Loose

Saxon

Dark clouds gather in the east  
Calm before the storm  
The devil sends his messenger  
Hurricane is born  
Lightning cracks across the sky  
The tempest has begun  
Raging forces take control  
Destruction soon will come

Tearing up smashing down rolling on and on  
Smashing through getting close  
The time to run has gone  
Twist and turn on its path  
Crashing through your valley  
This is nature's killing ground  
You're in tornado alley

All hell breaking loose coming in your direction  
Screaming down across the sky  
There is no protection  
All hell breaking loose coming in your direction  
Screaming down across the sky  
There is no protection

Turn your heads towards the sky  
Pray for your salvation  
You can't stop this mighty force  
It's not of your creation  
Death and chaos all around  
This is not a dream  
Caught inside the deafening roar  
No one hears your scream

Tearing up smashing down rolling on and on  
Smashing through getting close  
The time to run has gone  
Twist and turn on its path  
Crashing through your valley  
This is nature's killing ground  
You're in tornado alley

All hell breaking loose coming in your direction  
Screaming down across the sky  
There is no protection  
All hell breaking loose coming in your direction  
Screaming down across the sky  
There is no protection

Lightning cracks across the sky  
The tempest has begun  
Raging forces high above  
Nowhere left to run  
Dark clouds gather in the east  
The calm before the storm  
The devil sends his messenger  
Hurricane is born

Tearing up smashing down rolling on and on  
Smashing through getting close  
The time to run has gone  
Twist and turn on its path  
Crashing through your valley  
This is nature's killing ground  
You're in tornado alley

All hell breaking loose coming in your direction  
Screaming down across the sky  
There is no protection  
All hell breaking loose coming in your direction  
Screaming down across the sky  
There is no protection, protection, protection

All hell breaking loose coming in your direction  
All hell breaking loose
