

Bomber

Saxon

Ain't a hope in hell
Nothing gonna bring us down
The way we fly
Five miles off the ground, because

We shoot to kill
And you know we always will
It's a bomber, it's a bomber
It's a bomber

Scream a thousand miles
Hear the black death rising moan, hey
Firestorm coming closer
Napalm to the bone, because

You know we do it right
A mission every night
It's a bomber, it's a bomber
It's a bomber

No night fighter
Gonna stop us getting through
The sirens make you shiver
You bet my aim is true, because

You know we aim to please
Bring you to your knees
It's a bomber, it's a bomber
It's a bomber
