

# Hard And Fast

Saxon

Ride into the sunset  
Without a devils care  
Riding fast you lose yourself  
The wind is in your hair  
The road slips by beneath your wheels  
Rolling on and on  
See the world go flashing by  
Like a bullet from a gun

Driving hard  
Feeling free  
Moving fast  
At lightning speed  
Hard and fast  
Driving hard and fast

Out into the country  
Throttle open wide  
Take it to the limit  
Feel the wheels begin to slide  
Nothing beats the feeling  
Senses overload  
When you get behind the wheel  
Just let your mind explode

Riding hard  
Feeling free  
Moving fast  
At lightning speed  
Hard and fast  
Riding hard and fast

Racing down the highway  
Engine running smooth  
There's nothing better in this world  
Epitome of cool  
Listen to the radio  
Play your favourite song  
Rock 'N' Roll will never die  
It just keeps rollin' on

Driving hard  
Feeling free  
Moving fast  
At lightning speed  
Riding hard  
Feeling free  
Hard and fast  
Driving hard and fast  
Riding hard and fast
