I'm on Fire

Ya driving me crazy You're outta control Your breaking all the rules Sneaking out your back door You're nothing but a wild child Running 'round town 'Cause if there's a hell Then I'm going down

Somebody call for emergency Somebody rescue me I'm on fire Somebody rescue me I'm on fire

My temperature's risin' A hundred and four You're looking to hot I'm standing in a heat wave Your nothing but a sex show You're makin' me yearn You're taking me down, baby And I'm gonna burn

Somebody call for emergency Somebody rescue me I'm on fire Somebody rescue me I'm on fire

I'm on fire I'm on fire Somebody rescue me I'm on fire
