

## Sniper

Saxon

Mark the target, take it slow  
Don't make a sound, let no one know  
Where you lie and hide from view  
Through the scope your aim is true  
Crosshairs mark the deadly spot  
Pull the trigger, take the shot

Sniper! Never asks for reasons why  
Sniper! Let the bullet fly

Check the sights, read the wind  
Take your time, you're disciplined  
Squeeze the trigger nice and smooth  
No sudden shock, no sudden move  
Keep your calm the patient one  
See the kill, the job is done

Sniper! Never asks for reasons why  
Sniper! Let the bullets fly

Deadly fire towards the kill  
No sentiment, you know the drill  
Highly trained, you are the best  
Super marksman, you passed the test  
Crosshairs mark the deadly spot  
Now squeeze the trigger and take that shot

Sniper! Never asks for reasons why  
Sniper! Let the bullets fly

Let the bullets fly

Mark the target, take it slow  
Don't make a sound, let no one know  
Where you lie and hide from view  
Through the scope your aim is true  
Crosshairs mark the deadly spot  
Pull the trigger, take the shot

Sniper! Never asks for reasons why  
Sniper! Let the bullet fly  
Sniper! You're dead before you hit the ground  
Sniper! Gone without a sound
