

Please pass over your elixir drink
Today the world is much to bludgening
I need to numb me back into the womb
And there I will do cartwheels if there's room.

If you could turn it all down just a notch.
I wouldn't have to knock all of your socks off.
Oh and I heard that spice girl thats named "posh".
I've got some time since I've broke my watch.
(some ohs)

I'm clearly having one of my episodes.
Bring out the credit card lets by a friend or oh.
Does anyone know exactly just how that theme song goes.
There aren't that many curly sheps as there are moes

the new sted man is why I look so bloom
I gave him a finger not the thumb
I haven't shaved so I look like a bum
Needless to say I ain't gonna get none.

And the taximan gave me a long free ride
He said I built up energy inside.
But I said to him please tell me who just died
bequething onto you the title "Freud"
