

# Beneath The Roses

SayWeCanFly

In another life  
I will always love you and you'll always love me too  
And maybe it's alright  
That I will never know the way it feels to hold the moon  
And we can take the stairs  
The elevator's broken and the devil won't be home

I don't know if you're aware  
But this will be the last time that we ever kiss, you broke  
Every piece  
I can finally rest my heart  
Falling gently through the dark  
And you can bury me  
In a coffin full of stars  
With fireflies in mason jars  
I'm sinking

Somewhere in the night  
You can find me waiting please just  
Let me drive you home  
Let's not say goodbye  
The suffering you gave me was the  
Best I've ever known  
And we can take my car  
My windshield is broken from the  
Last drive down this road

I don't know where you are  
But this will be the last time that we  
Ever get this far, you broke  
Every piece  
I can finally rest my heart  
Falling gently through the dark  
And you can bury me  
In a coffin full of stars  
With fireflies in mason jars  
I'm sinking  
Deep beneath  
The burning roses up above  
No longer scared to feel your love  
And you are, finally free  
So let me go and say goodbye  
The love we had will never die  
Not with me

I'm gone, I'm gone, I'm gone  
I'm gone, I'm gone, I'm gone  
I'm gone, I'm gone, I'm gone  
I'm gone, I'm gone, I'm gone  
I'm gone (Are you sleeping?)  
I'm gone (Are you sleeping?)  
I'm gone (Are you sleeping?)

Just tell me what you want from me  
If I could give you anything that I would, I would  
Just tell me what you saw in me  
I'm closer than you ever think, we're good, I'm good

And if you break the heart inside my chest  
I promise I will not forget who you are, you are  
Break my bones again before you go  
And tell me that I'll be alone forever ever
