

(Embrace me, love
I never stopped thinking 'bout you)

Like ashes from ember tears
(Ashes from ember tears)
You're glowing bright since you left us here
I watch the angels surround you
(Angels surround you)
I don't wanna be here without you

Embrace me, love
Heaven's not the same place without you
(Same place without you)
Embrace me, love
I never stopped thinking 'bout you
Embrace me

Like roses from snow appear
(Roses from snow appear)
You're glowin' bright since you left us here
I watch the wolves dance around you
(Wolves dance around you)
I don't wanna sleep here without you

Embrace me, love
Heaven's not the same place without you
(Same place without you)
Embrace me, love
I never stopped thinking 'bout you
Embrace me

Hear your voice in the silence
Feel my heart turning violent

Embrace me, love
Heaven's not the same place without you
(Same place without you)
Embrace me, love
I never stopped thinking 'bout you
Embrace me

Embrace me, love
Heaven's not the same place without you
(Same place without you)
Embrace me, love
I never stopped thinking 'bout you
Embrace me
