

If I Died For You

SayWeCanFly

Imma turn the light out
Just tell me when it's light out
Cause I'll be coming down from
A temporary high now

Lately these nightmares
Have been so peaceful
Cause I get to spend time
With other people
And not have to be myself
If I'm smiling at you
Then you know that
I'm not doing well

If I died for you
Would would you die for me
When I'm not the one
That you thought I'd be
Life's not the way
It is on TV
Forgot my lines
And messed up this scene

Last night I was in my bed
Reminiscing everything I said
Sunshine, I prefer the dark
Cause seeing what's around me
Is always way too hard

How can I know you
I don't know me
Standing on the edge
What if I jumped in

If I died for you
Would would you die for me
When I'm not the one
That you thought I'd be
Life's not the way
It is on TV
Forgot my lines
And messed up this scene

If I died for you
Would would you die for me
When I'm not the one
That you thought I'd be
